

Using Your Teacher Guide...

Addison Wesley Mathematics Makes Sense recognizes that teachers need a program with quick access to ideas for instruction and teacher support features.

Your Teacher Guide has separate modules for each unit of instruction, with additional modules to support your year-long planning:

- **Program Overview** with detailed information about the overall structure and features of the program
- **Building a Math Community** with a description of a positive classroom environment, and practical suggestions for organizing your classroom and materials, as well as grade-specific ideas for routines and activities
- **Assessment Background and Additional Support:** This module includes a selection of assessment tools that can be used throughout the program for your assessment and reporting needs

The enclosed CD provides additional support and ensures ease of use, with

- A grade-level correlation showing our complete curriculum fit
- Editable versions of unit planning charts, rubrics, and other assessment tools
- Files for selected line masters
