

Your Internet companion to the most exciting, state-of-the-art educational tools on the Web!

The Pearson Education Canada Companion Website is easy to navigate and is organized to correspond to the chapters in this textbook. The Companion Website comprises these distinct, functional features:

Customized Online Resources

Online Interactive Study Guide

Interactivities

Communication

Explore these areas in this Companion Website. Students and distance learners will discover resources for indepth study, research, and communication, empowering them in their quest for greater knowledge and maximizing their potential for success in the course.

A NEW WAY TO DELIVER EDUCATIONAL CONTENT

Course Management

Our Companion Websites provide instructors and students with the ability to access, exchange, and interact with material specially created for our individual textbooks.

- **Syllabus Manager** provides instructors with the option of creating online classes and constructing an online syllabus linked to specific modules in the Companion Website.
- **Grader** allows the student to take a test that is automatically marked by the program. The results of the test can be e-mailed to the instructor and then added to the student's record.
- **Help** includes an evaluation of the user's system and a tune-up area that makes updating browsers and plug-ins easier. This new feature will facilitate the use of our Companion Websites.

Instructor Resources

This section features modules with additional teaching material organized by chapter for instructors. Downloadable PowerPoint Presentations, Electronic Transparencies, and an Instructor's Manual are just some of the materials that may be available in this section. Where appropriate, this section will be password protected. To get a password, simply contact your Pearson Education Canada representative or call Faculty Sales and Services at 1-800-850-5813.

General Resources

This section contains information that is related to the entire book and that will be of interest to all users of the site. A Table of Contents and a Glossary are just two examples of the kind of information you may find in this section.

The General Resources section may also feature *Communication facilities* that provide a key element for distributed learning environments:

- **Message Board** – This module takes advantage of browser technology to provide the users of each Companion Website with a national newsgroup to post and reply to relevant course topics.
- **Chat Room** – This module enables instructors to lead group activities in real time. Using our chat client, instructors can display website content while students participate in the discussion.

Want some practice before an exam?

The Student Resources section contains the modules that form the core of the student learning experience in the Companion Website. The modules presented in this section may include the following:

- Learning Objectives
- Multiple-Choice Questions
- True/False Questions
- Completion Exercises
- Problems
- Destinations
- Net Search
- PowerPoint Presentations

The question modules provide students with the ability to send answers to our grader and receive instant feedback on their progress through our Results Reporter. Coaching comments and references to the textbook may be available to ensure that students take advantage of all available resources to enhance their learning experience.

Companion Websites are currently available for:

- Horngren: *Introduction to Financial Accounting*
- Horngren: *Cost Accounting*
- Revsine: *Financial Reporting and Analysis*
- Arens: *Auditing and Other Assurance Services*

Note: Companion Website content will vary slightly from site to site depending on discipline requirements.
